BATH, MAINE, Jan. 29, 1859.

Professor O. J. Wood & Co:
GENTLEMEN: Having my attention called a few months since to the highly, beneficial effects of your nair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whishers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon four lix was proving what I had wished. I used it about a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the grey or white bair has totally disappeared both on my head and face, and my hair has cosmed its natural color, and 15 it ve, note soft and glossy than it has been before for twenty-five years. I am now sixty years old; my god wife at the agoof iffs-two has used it with same effect.

The above notice I deem due to you for your valuable discovery. I are assured that whoever will rightly use, as per directions, will not have occasion to contradict mylstatements. I am a utilize of this city and a resident here for the last fifteen years, and an snown to nearly every one here and adjoining towns. Any use you may make of the above, with my nazes attached, is at your service, as I wish to preserve the hearnies ofnature in others as well as myself. I am truly, your,

This DELECTOUS TONIC especially designed for the use of the Merican Procession and the FAMILY, possesses those intriesis medicinal properties (Tonic and Diarctic) which belong to an Old and PURE GIN. The business of manufacturing spanious gins, and offering them as beverages, under the titles, "Aromatie,"—"Cordial,"—"Medicated," etc., has become so common, that the publie are justly suspicions of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute It has remained for our house (established in 1773) to supply the pressing popular nced, and to imaggirate a new era in the history of the Trade. We trust that our established reputation -- founded upon eighty years of experience-abundantly vindicates our claim to public confidence.
